

ZIPPING UP MILAZZO: a path through history

the concept

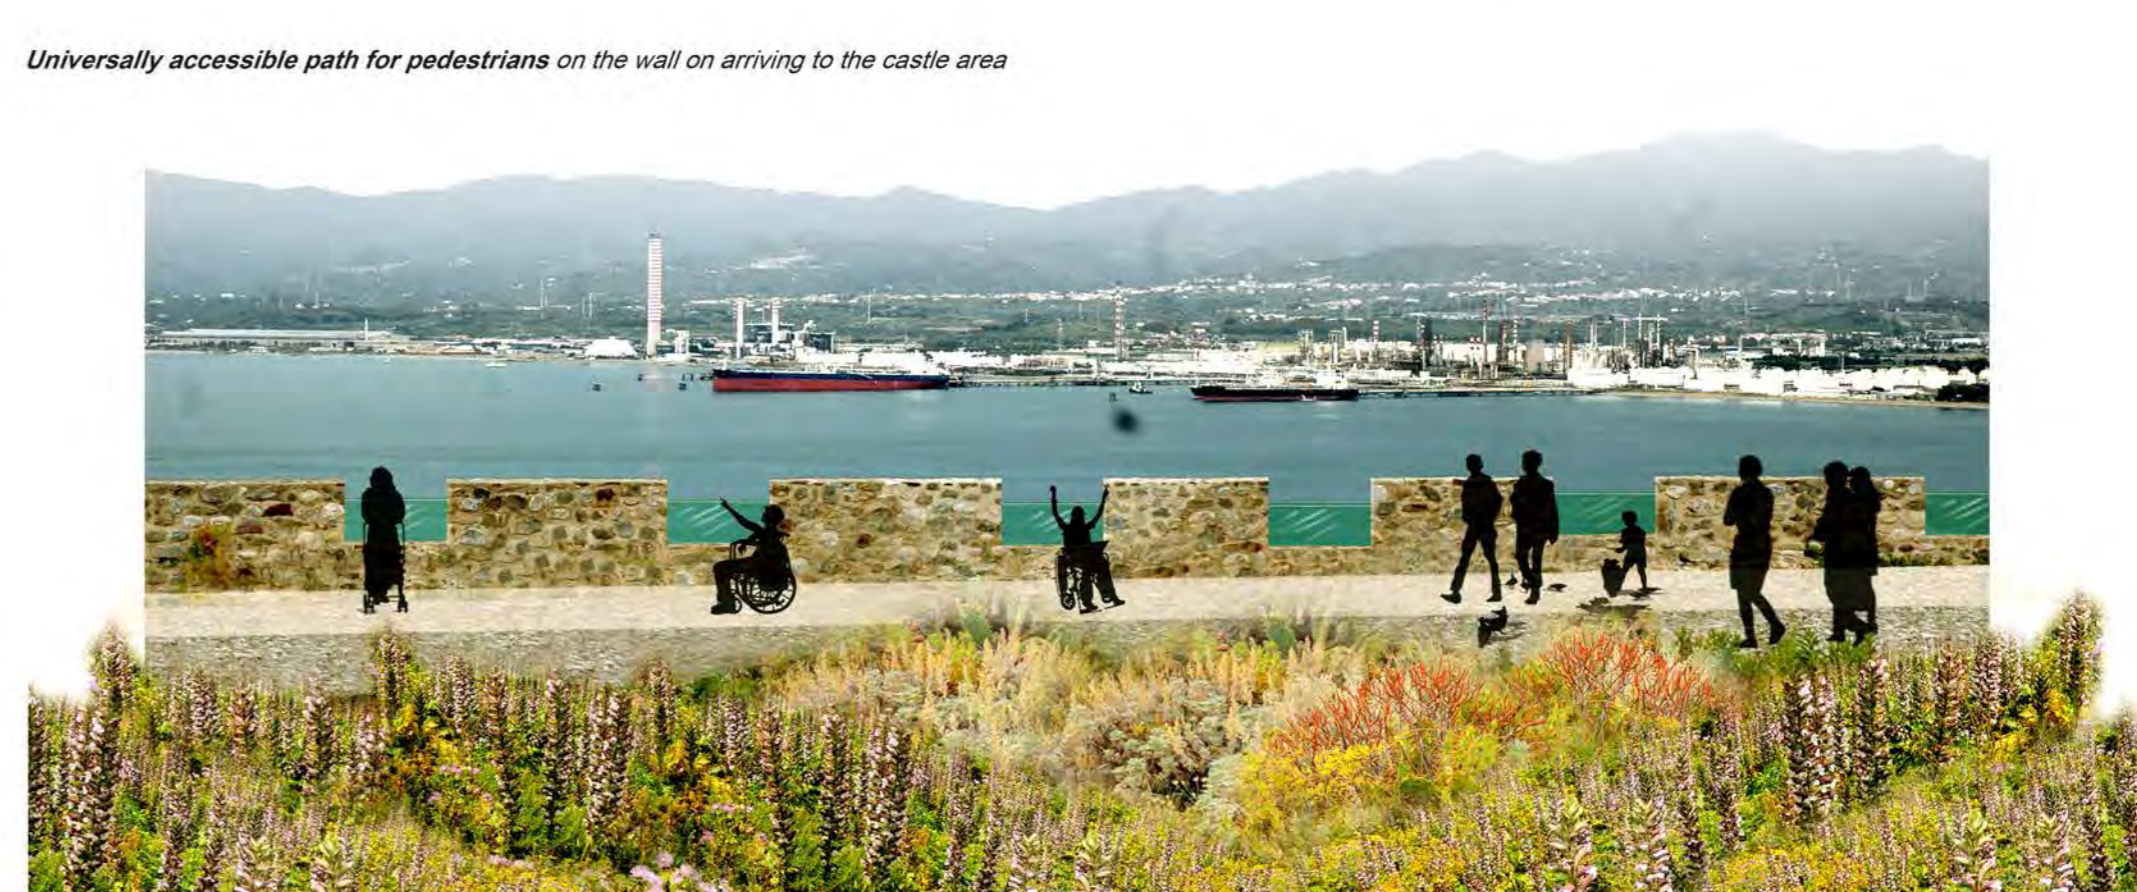

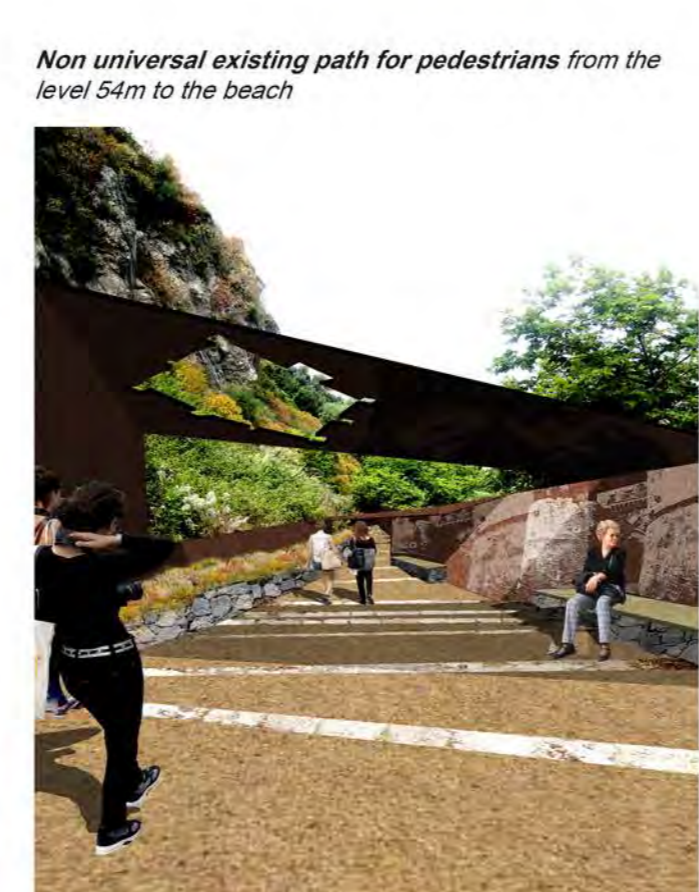

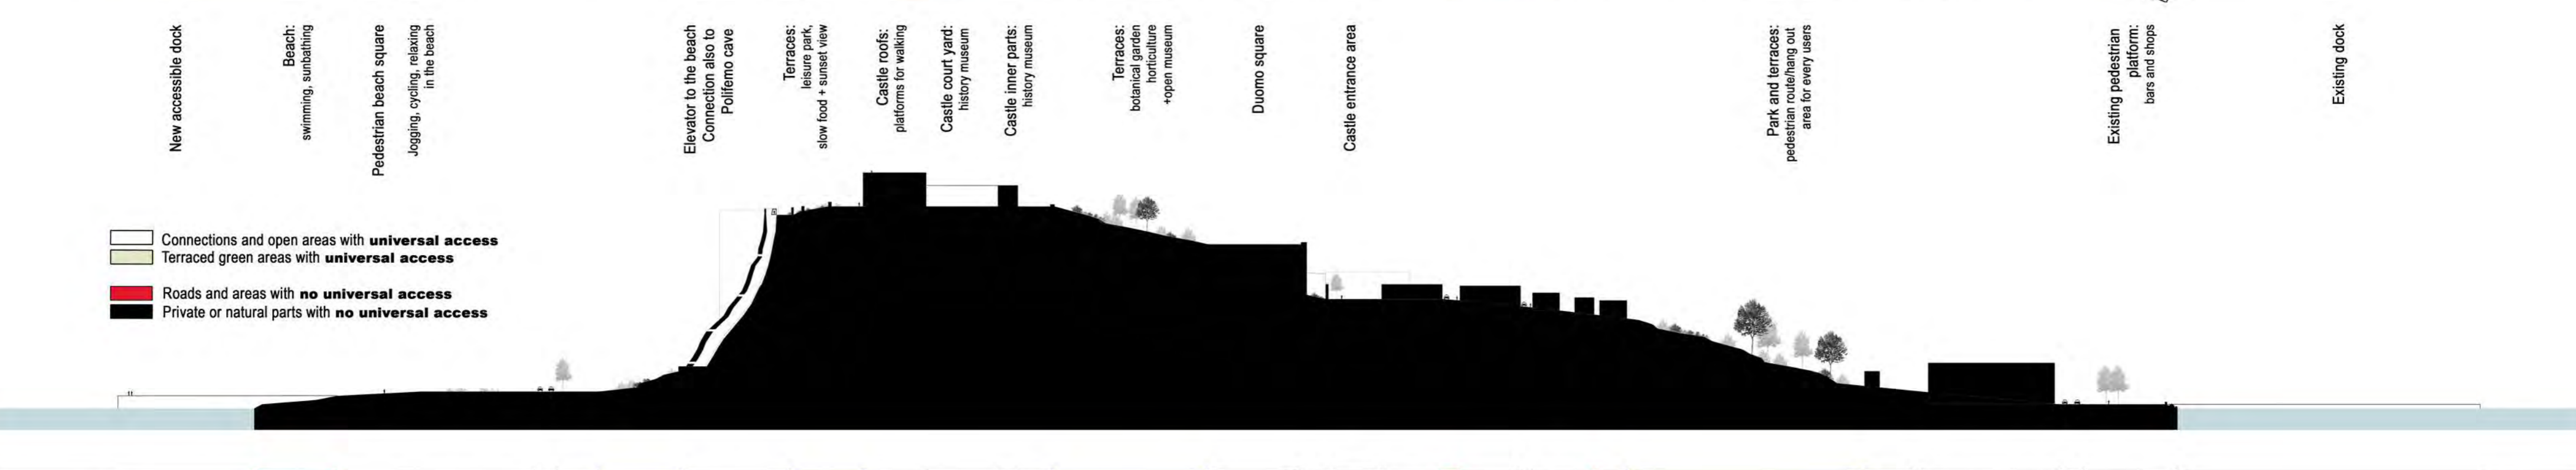

"If you draw a dot, people will stand.
 If you draw a line, people will move."

the main idea

from the west to the east waterfront through the castle

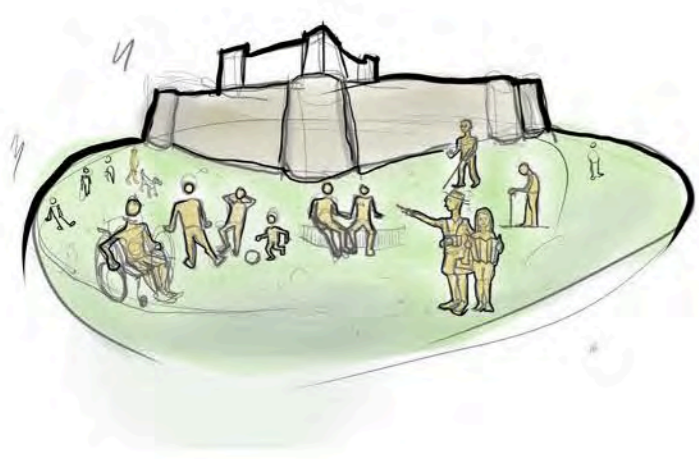

the masterplan and the area section scale 1 / 1500

ZIPPING UP MILAZZO: a path through history

the concept

"Make the castle active and attractive for tourists and citizens."

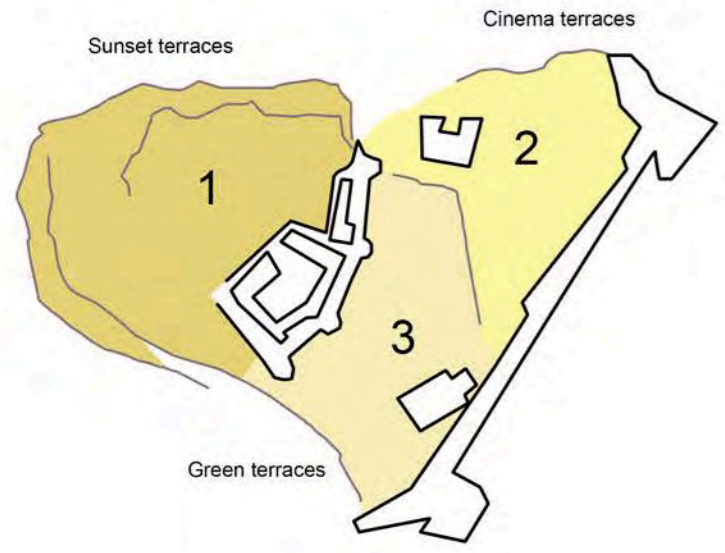

the accessibility inside the castle

multiple accessible paths to reach the castle enjoying the green areas

the 3 open areas

the castle's surrounding open areas are functionally divided into 3 sections

the uses inside the castle

The castle's surrounding areas have been provided with several activities in order to enhance the coexistence of citizens and tourists, maintaining the historical essence of the castle.

This way, the path through history becomes enjoyable and the castle becomes the main attractive pole of the city of Milazzo.

Inside the castle you can find an active museum that transports you the various historical phases that have succeeded in time.

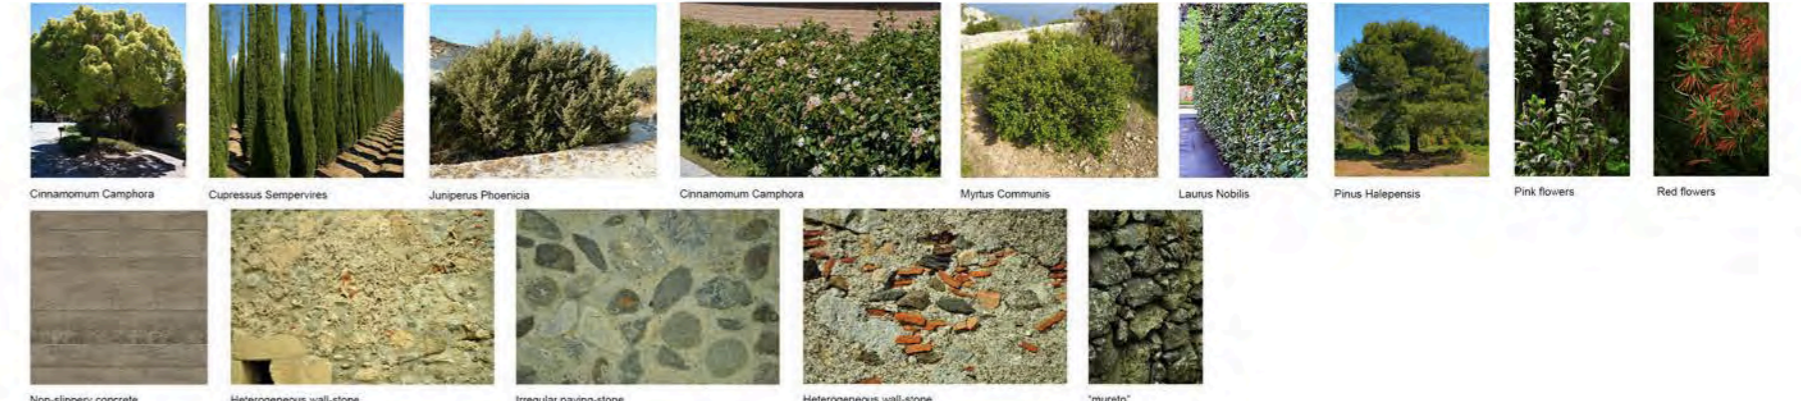

Meanwhile, in the external areas you can enjoy your time with several activities in the open.

You can enjoy the open cinema, a picnic, the view of the sunset and the city, a slow food center, and experience a walk through the park along all the natural vegetation of Sicily.

various materials and vegetation

preserving the old materials and the vegetation of the site the scents of the flowers will also allow the blind people to find their way and the non-slippery concrete ramps will ease accessibility for those who are disabled
